## **DETAILED ACTION**

### ***Panel Decision from Pre-Appeal Brief Review***

1. Prosecution is reopened by the Notice of Panel Decision from Pre-Appeal Brief Review of May 15, 2009.
2. Applicant's arguments presented in the Pre-Brief Conference Request of April 8, 2009, are found to be convincing. The finality of the Office Action of January 26, 2009, is withdrawn. Claims 1-35 are currently pending.

### ***Allowable Subject Matter***

3. Claims 1-35 are allowed.
4. The following is an examiner's statement of reasons for allowance:
5. Applicant's arguments presented in the Pre-Brief Conference Request of April 8, 2009, on page 2 are found to be convincing. Regarding amended independent claims 1 and 18, the prior art of record fails to teach or suggest a plasma display, or the method for making a plasma display with a front substrate and a back substrate facing each other across a discharge space, and with, between the front substrate and the back substrate, a plurality of row electrode pairs and a plurality of column electrodes extending in a direction intersecting the row electrode pairs to form unit light emitting areas in the respective portions of the discharge space corresponding to the intersection with the row electrode pairs, comprising; on an area facing the unit light emitting area between the front substrate and the back substrate, a magnesium oxide layer that includes a magnesium oxide crystal capable of emitting a cathode-luminescence emission having a peak within a wavelength range of 200 nm to 300 nm

upon being excited by electron beams, wherein the magnesium oxide crystal is exposed to the discharge space, together with other claim limitations.

6. Claims 2-17 and 19-35 are allowable due to their dependency.
7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
